## Mr. Average Canadian May Now Afford a Home

### POLITICS JUST NUTHIN' TO THESE CHICKENS

NEWTOWN BUTLER, County Fermanagh, Ireland, Sept. 22.—(Reuters)—When police swooped on a farm through which the Republic of Ireland-northern Ireland border runs they saw 25 hens on the Republican side and 60 on the other.

The farmer was loading 115 dozen eggs into a truck on the Northern Ireland side.

Taken to a Northern Ireland court, the farmer was fined £10 (\$26) for importing the eggs illegally.

Commented the farmer: "I cannot stop the hens' laying on which side of the border they choose, can I?"

## New Friendship Train Planned by Chamber

Edmonton's Chamber of Commerce will shower Lloydminster with a trainful of friendship next month.

A friendship train will make the junket to the border city October 13.

As many as 100 Edmonton businessmen are expected to make the goodwill trip.

Announcement of the visit was made yesterday following regular meeting of Chamber of Commerce council.

TRAVEL CNR, CPR The train will make the outward trip via CNR, returning on CPR tracks. Several stops will be made between here and Lloydminster.

It also was announced that several Chamber members will attend the diamond jubilee celebration of the Leitchbridge Chamber of Commerce Friday.

Going to Leitchbridge will be President A. L. Burrows, H. E. Pearson, S. R. McDougall, the Hon.

IT HAS BEEN WARMER

## Glaciers' Pulses Taken To Show Climate Change

CALGARY, Sept. 22.—(CP)—One of the world's slowest-motion "thermometers" has indicated the climate in western Canada at least has been milder than normal.

The thermometer is a number of glaciers in the Canadian Rockies. The "readings" have been taken by survey parties, armed with transit, of the federal government's water and power bureau.

W. T. McFarlane, Calgary soil engineer who recently led a party into Alberta glacier region for the government survey, reports the glaciers are shrinking.

Measurement of the movement of glaciers was begun by the government in 1940 but federal sci-

OTTAWA, Sept. 22.—(CP)—The little man in need of a home can take a longer, happier look at his hairroll today. He now may be able to buy.

The federal government yesterday did something about the fact that a growing number of Canadians no longer have enough cash saved away to make, say, a \$2500 down payment on a house.

In the Commons, Reconstruction Minister Winters said the government is instituting a system of loans that will cut roughly in half the down payment on homes where price officials are satisfied are fair and reasonable.

LONG PARTNERSHIP It also is proposing that the provinces enter into a long-term partnership on projects to assemble land and build houses both for sale and rent. But that depends on provincial approval. The first proposal is entirely federal. It only needs parliamentary approval.

Officials say it is designed to help the little man in just about the same degree as he is helped now.

Grumpy Spring, Noted Lacrosse Figure Is Dead

NEW WESTMINSTER, B.C. Sept. 22.—(CP)—Gordon Grumpy Spring, one of the best-known figures in the Canadian lacrosse world, died in hospital here last night. He was 60 and had been ailing for more than a month.

As a player, he was associated with the old Selkirk team when they won the Minto Cup some 25 years ago. Grumpy was noted for his hard and accurate shot.

He coached the Fishmen to several league and titles and lately with them in an advisory capacity.

THE PRESSURE OF THE INTERNATIONAL LADIES' GARMENT WORKERS' UNION (AFL-CIO) beat out the former vice president by a vote of 360 to 360.

BEN REELECTED Carl Bengough of Edmonton, parole vice-president for more than 15 years, was returned to that office after a contest with James MacDuff of Brantford, Man. The vote

was Graham, Winnipeg carpenter and member of the Manitoba Labor Board, had been backed by the Hall group, but declined to run. The Hall forces then threw their strength to Bengough.

Bill Shawler of Vancouver, supported by both the International Ladies' Garment Workers' union (AFL-CIO) beat out the former vice president by a vote of 360 to 360.

ABBOT ARRESTED PHILADELPHIA, Sept. 22.—(CP)—A reliable source reported today that Czech Communist police arrested a benedictine abbot and several monks superior of Roman Catholic convent in Prague within the last week.

## 8 Pct. Freight Rate Increase Is Approved

### FREIGHT RATE CASE IN SUMMARY FORM

Here is what has happened in the freight-rate case decided today by the Board of Transport Commissioners.

1. On March 30, 1948, the board awarded Canadian railways freight-rate increase of 21 per cent. The board had asked 30 per cent. The increase went into effect 10 days later.

2. On July 22, 1948, the board asked for a 20 per cent. increase.

3. On Oct. 12, 1948, after protests from shippers, the board ordered the railways to review the award of 21 per cent.

4. On Jan. 11, 1949, the board began hearing evidence on the new application and to review the 1948 award.

5. On March 3, 1949, the board finished hearing evidence.

6. The board ruled today the railways should get an increase of eight per cent over the rates in effect July 27, 1948. As the 21 per cent increase is in effect, then, it will remain in force. But the board said the increase should have been only 15 per cent.

7. The board said the new increase was only temporary. Some changes might have to be made after the Royal Commission on transportation.

## City Buyers to Feel Freight Rate Increase

The Edmonton consumer is going to take the financial knock of the latest 8 per cent freight rate increase.

City firms said today the latest freight rate boost will be passed along to the consumer.

One city auto salesman told The Bulletin that as far as cars were concerned, profits have already been cut to the point where no one along the manufacturer-wholesaler-retailer chain can absorb any of the latest increase.

To get an idea of how freight rate increases during the past year affect Edmontonians, take the case of automobiles.

Before the 21 per cent freight rate jump in March, freight charges for a 1948 Ford sedan from Toronto were \$2750 (cost of \$430 per 100 pounds, first class rate within 5000 pounds).

Following the 21 per cent freight rate increase, freight charges for the same car jumped to \$2775, an increase of \$25.

Another eight per cent on the old rate will boost charges another \$18, or a \$45.50 increase over the old rate.

INCREASE SOON Official word from eastern headquarters has not been received by Edmonton railway freight officials, but is expected within a day or two.

Adjustments to freight rates are coming about as fast as freight officials can make them.

The 21 per cent increase, for lifting of mountain dirt roads and now must be changed again.

## DRIVERS, TOO

### Some Get More Than They Ask

Sometimes you get more than you bargain for.

Carl Bengough, a lot of people discover when they first begin using Bulletin want ads.

Edmonton's largest firm which advertised in the new Bulletin want ads, was contacted by a truck driver for city run light delivery work.

In almost no time after the ad appeared, the advertiser was contacted with calls.

"That firm, and a lot of other advertisers, have learned that Bulletin want ads get results. Phone 42111 and see."

## CN, City OK Tax Changes

Alteration of two clauses in the city-CNR agreement on the Macdonald hotel extension which Mayor Harry D. Ainley, contacted with charter amendments obtained at the last city council meeting, were agreed to here yesterday by R. C. Vaughan, railroad president.

One clause proposed by the CNR specified that tax on the extension would not start until Jan. 1 of the year following its completion. Second specified a 20-year taxation agreement.

The charter amendment obtained earlier last year says taxes on new buildings will start in two years or on completion of the building, whichever is earlier.

It also says a 10-year period for agreements.

## Boost Additional To 21 Pct. Raise

OTTAWA, Sept. 22.—(CP)—The Board of Transport Commissioners, in a majority report, today granted an eight per cent increase in freight rates.

The new rate increase is in addition to the 21 per cent awarded the carriers March, 1948.

The board asked an increase of 15 per cent—rather than 21 per cent. It awarded the railways in a judgment in March, 1948—would have been necessary to meet financial needs.

In effect, however, the 21 per cent increase will remain in the rate structure.

Today's boost was eight per cent on the 21-per cent increase granted in March, 1948, making the effective increase 30.68 per cent over the rates prior to 1948 award.

The new rates will go into effect 10 days after the board issues its formal order based on today's decision. The order is expected early next week.

Expected to net the railways an additional \$30,000,000 in additional annual revenue, the new freight rates are a temporary measure on the railways' application for a general freight increase of 20 per cent.

The board said it would deal with the application again after the royal commission on transportation and a universal survey on rail rates is complete. The board issues its formal order based on today's decision. The order is expected early next week.

## Grain Rates Unaffected

In a minority judgment, H. Wardrop, assistant chief commissioner, recommended a 15 per cent increase in grain rates.

Mr. Wardrop, who has recommended a boost of 24 per cent in a minority report in March, 1948, on the original application for a 30-per-cent boost, said he felt the award last year should not be altered.

With the new eight-per-cent boost, the board ordered an increase in the rate of coal and oil by eight cents a ton, on top of the 20 cents a ton allowed the railways in the 25-per-cent judgment.

Mr. Justice M. B. Archibald, commissioner, announced the board's decision, said it was the opinion of the majority that the 21 per cent increase in freight rates should have been 15 per cent.

"This opinion," which does not change the previous freight-rate structure had a hearing, Mr. Justice Archibald said, in granting the 15 per cent increase, is not affected. They are governed by the Crown's Past Pass agreement with the railways.

Three commissioners heard the case, one of the most complicated in Canadian history. All three commissioners, Mr. Archibald, Mr. Wardrop and Mr. H. Wardrop, were appealed against the 21-per-cent boost.

The board said it would deal with the application again after the royal commission on transportation and a universal survey on rail rates is complete. The board issues its formal order based on today's decision. The order is expected early next week.

## Give Majority Decision

Commissioner H. B. Chase, concurring with Mr. Justice Archibald in the majority decision, Mr. Wardrop, the third commissioner, said in his opinion the original 21-per-cent boost should not be changed and that the road should have been granted an additional 15-per-cent increase in the new 20-per-cent application together with an increase in coal and coke charges of 15 cents a ton.

The 15-per-cent increase on the 21-per-cent increase in freight rates had established a case for a rate increase in view of "a substantial increase" in operating costs since 1948.

(Continued on page 2)

See "8 Pct. Freight"

## Commerce Chamber Protests Freight Hike

Edmonton's Chamber of Commerce is protesting the latest increase in freight rates.

Chamber is against the latest increase because it accentuates present discriminations of Canada.

Statement on Chamber policy was issued by Vice-President Oliver McIntyre.

Mr. McIntyre said: "The Chamber of Commerce is protesting the increase in freight rates because it is a discrimination against our country and which works in discrimination against other parts of Canada."

As an example, Mr. McIntyre said a company in Leitchbridge can ship products to Vancouver as cheaply as canners in Ontario.

Referring to percentage increases, Mr. McIntyre said that in cases where rates are already high, as in Alberta a percentage increase means the rates are higher, and the increase is less where rates are already low.

## BIBLICAL LION AND LAMB

had nothing on this pup and plem when it comes to lying down together. Tiny and Blackie are boon companions who sleep, eat and drink together. When plem is disturbed, it nestles up to pup for protection. Both are pets of Jackie Segondia of Windsor, Ont.

# It Happened TODAY

## Manners & Morals

If they don't wear the big hat you can tell they're British. That seems to be the mind of Canadian Scouts. Scoutmaster Jock MacLeod announced Canadian Scouts will "definitely stick to the old British boy scout message to change to maroon or green berets."

COMMISSIONER DODDS ... Scout hat stays.

## Devaluation

Many Britons living in Canada may pack up and move back to sterling area countries following devaluation. British army, many air force personnel and others living on income from sterling capital have been asking about passage home in B.C. Many recent immigrants are talking of going home.

Canadian apple growers are expected to suffer from devaluation of the pound sterling, says R. J. Leslie, general manager of Nova Scotia apple marketing board. Leslie predicts it will be a long time before Canadian growers get back in the British market on an economic basis.

Canadian shipping will be all but "sunk" as a result of devaluation, west coast shipping sources contend. Canadian ships will be unable to compete with more cheaply-operated British and Scandinavian vessels. It is claimed.

## Spy Trials

Tokyo Radio talked a lot during the war without putting anything across on Uncle Sam's doughboys in the Pacific war area. It will soon be seen whether a lot of talk at her trial will be any more effective. Trial of the American-born Japanese woman for treason is hearing an end after setting a record for U.S. treason hearings.

There are hopes of an end to the conspiracy trial of 11 top-ranking U.S. Communists. Trial has been going for eight months and should be over shortly except for wrangling and deliberate delays by defence lawyers to have a mistrial ruling.

## 170-Mile Journey In Hay Racks Gruelling

By Ken Liddell  
Principal News Editor

LEIDUE, Sept. 22.—Mr. and Mrs. Vincent Fortier and their four children are visiting with Mr. Fortier's brother, Peter, after an uneventful journey from Bonnyville in a hay rack.

When they reached Leideau, after the 170-mile trip, they were tired, the horses were tired and the furniture, including the kitchen stove and washing machine, had developed a nasty habit of jiggling around.

**HARD LUCK AREA**  
Something of a one-man exodus from a hard-luck area, Mr. Fortier, 46, said he hoped Peter could help get work in the field.

The children, Lillian, 15; Lucien, 14; Raymond, 12; and Laura, six, were happy because it had been quite an outing, sleeping on hay racks and missing a few days of school.

But Mrs. Fortier, youthful and attractive, said baking bread out in the open wasn't it was cracked up to be, and she was glad to have the children at school because they are right smart with their studies.

Peter and Kate, the horses, just looked tired. The gravel highway had been hard on their feet.

**ONCE ONLY**  
The team and the Fortiers had navigated with the aid of a high way map and Mr. Fortier said he wouldn't do it again. What fortune he had at home he intended to turn down by truck when he is settled.

Tough part of the trip, apart from two nights spent under canvas in the rain, was getting the hay rack through Edmonton's busy streets.

Every night they pitched a tent by the side of the road, and on the nights they were rain-soaked, they draped the canvas over the rack and slept with the furniture.

They started out each morning at 6 o'clock and logged along until supper hour, with haste during the day.

"I spaced the route," said Mr. Fortier, "and I had to go to the bank to get the money to pay for the trip."

## Labour

Leslie S. Buckmaster, president of CIO-United Rubber Workers Union, has been king for a day again. Buckmaster was dismissed last May for alleged abuse of power. Yesterday his union set the order aside, but he'll likely be defeated at tonight's election of new officers.

More than 100 B.C. northern and southern interior lumber workers have been offered a 1960 wage and wage contract by operators. Officials of the union have been asking about acceptance of terms which are basically same as those accepted by coastal logging unions some time ago.

## Great Britain

Lady Godiva rode right through the streets of Coventry recently in a truck and never tied up traffic. Reason may be that she's been a lady knight since the 11th century. She now weighs two tons and is of solid bronze. The \$200,000 statue will be unveiled by the U.S. ambassador on Oct. 22.

## Politics

Liberals should be Canadians first. As a matter of fact, they should forget about being Liberals in the service. That advice comes from Senator John T. Harte. He just happened to be Tory leader of the opposition in the Canadian upper chamber.

## Air Security

Memorial dedication.

## Aviation

United Kingdom air secretary Sir Arthur Henderson will fly to Canada Sept. 27 for dedication of memorial gates in BCAP Pavilion at the annual meeting of Commonwealth air training schools.

## Winings

Winings is to have a new post office but it will take a whole year to complete plans, says federal works minister, Fournier.

## Prime Minister

Prime Minister St. Laurent has promised to look into the problem of obtaining a sufficient supply of flat seed for vegetable oil mills in Saskatchewan.

## Parliament

At a glance

YESTERDAY  
Reconstruction Minister Winters outlined a program to solve the housing problem in the country. He said the government will continue the full subsidy to gold mines until the end of 1960.

Two Newfoundland-born members reacted some of the problems of the Canada 1960 province. Senator John T. Harte, opposition leader, told the Senate high cost of housing and low income were the real problems of home-seekers.

The Commons will continue the Thruway debate. The Senate will sit.

**DO FALSE TEETH**  
Rock, Slide or Slip?  
FALLING ROCKS, SLIDES OR SLIPS are not new to the Canadian Rockies. They started out each morning at 6 o'clock and logged along until supper hour, with haste during the day.

"I spaced the route," said Mr. Fortier, "and I had to go to the bank to get the money to pay for the trip."

Tough part of the trip, apart from two nights spent under canvas in the rain, was getting the hay rack through Edmonton's busy streets.

## 8 Pct. Freight Rate Boost OK'd

(Continued from Page 1)

The 25-cent boost was granted. One of these operating-cost increases had to do with the 11-cent-an-hour wage boost granted the railway workers in July, 1948, to force the railroads to pay more.

The board said it did not believe "fair" that the railways maintain a general increase in freight rates without providing them with additional sources of revenue, pending a general increase in the cost of living and other governmental inquiries.

Mr. Justice Archibald, former exchequer court and Nova Scotia judge, said:

Some of the reasons Mr. Justice Archibald gave for the board granting only a temporary increase in rates was because of "great sympathy" with the arguments of the railroads.

One of these arguments dealt with the question of whether the two major roads in Canada—the Canadian National Railways and the Grand Trunk—would achieve any degree of co-operation which would lead to great savings in operations.

The chief commissioner said the board had no jurisdiction to inquire into the question. That point will be taken up by the Royal Commission.

However, it was going to undertake a detailed study of these other points brought up by the provinces. Just what the wage increase given railway workers meant in the way of lost revenue to the provinces was also a question.

The argument of the Canadian National Railways—whose operations were used as a yardstick for measuring the needs of other roads—was that it should get a fair return on capital investment.

It was pointed out that instead of using the C.N.R. as a yardstick, it may be more "proper" to use the Canadian National Railways' operations as a basis for establishing freight rates.

Amplifying his remarks on that point, Mr. Justice Archibald said the board had not furnished evidence which could show what "proper" rates would be.

"It must be understood that this board will not automatically direct an increase in freight rates for reason of increased labor costs unless the propriety and necessity of those increases have been demonstrated."

"The Canadian National Railways' net income of \$1,046,330 in the first four months of 1949 was a deficit of \$6,908,287 in the same period in 1948 while the Canadian Pacific railway's net loss of \$3,043,206 to \$2,477,310 in the same period."

"Now it becomes apparent that in the interests of maintaining reasonable efficient transportation services, some further measure of relief must be permitted the railways."

He said he did not feel they were entitled to the full 20 per cent increase because of recent increases in passenger rates authorized by the board and because the railways had been able to raise certain commodity rates and certain former low competitive rates.

He said he did not feel they were entitled to the full 20 per cent increase because of recent increases in passenger rates authorized by the board and because the railways had been able to raise certain commodity rates and certain former low competitive rates.

## China's Position in UN Said Cause for Worry

NEW YORK, Sept. 22.—(CP)—The United Nations fourth assembly today was braced to receive the full impact of the Chinese situation which up to the assembly.

Whether the blow was to fall immediately depended on what Dr. Tsiang Tsiang, Nationalist China's delegate, was prepared to say in his address today in the general debate.

Study Needed  
Delegates said the question of Chinese representation at the United Nations would have to be studied soon. They indicated, however, it was hoped the question could be postponed.

But with proclamation yesterday of a "People's Republic of China" by the Communists in Peking, there was growing indication that Tsiang might take the offensive and charge Russia with interfering in China's internal affairs by aiding the Communists.

The possibility also was broached by informed sources that Chinese Communists would soon press for the United Nations to take a place in the United Nations.

Challenge Seen  
Russia, these sources said, could challenge the credentials of the Nationalist Chinese representatives here and demand recognition for the Communists.

Western delegates also were on edge.

## Overturned Truck Injures Woman

PONOKA, Sept. 22.—Mrs. Stephen F. Fulin, Lethbridge, was hospitalized here with undetermined injuries received yesterday afternoon when truck in which she and husband were driving overturned on Highway road two miles east of Ponoka.

Truck driven by Anthony Fulin, also of Lethbridge, was pulling light passenger car and skidded on loose gravel. Both men received only minor injuries and bruises.

# Gov't Should Own Railways: Mayor

Equal Freight Rates Only Solution, Believes Amlay

Canada will never solve the freight rates problem, which has been with us since Confederation, until both railways come under government ownership, and rates are equalized.

This is Mayor Harry D. Amlay's reaction to the eight per cent freight rates increase announced today.

The mayor commented that the issue to Canada's transportation problem is much bigger than "tiddling with rates."

He said the question now before the Royal Commission on Transportation is one which I had hoped would be decided on the basis of some broader principle. The answer lies in government ownership and an equalization of rates," he said.

"The country must be treated as a whole, and not have farmers in the west penalized by high rates. But the board is just patching up the system, without arriving at any solution."

Asked what effect the boost will have on Edmonton city and district, the mayor replied:

"It will come out of primary producers and consumers—just as it always does."

The increase will take away the advantages shipping Alberta has to other parts of Canada that we would have gained through devaluation of the dollar, he said.

**EMPTY CARS**  
"Our greatest difficulty is that our heavy, bulky coal and wheat shipments east entail the return of a large number of empty cars."

He said the Canadian Pacific freight haulage has been "chasing from the east are considerable less than our exports."

Manufactured goods being shipped from east to west occupy much more space and take a higher rate. This, Mayor Amlay said, is the basis of the rate equalization argument.

**PAIR NABBED For Theft**  
Two youths, aged 16 and 20 were arrested last night when they were caught attempting to steal a car from a used car lot.

The police court today Ray Bergeron, 26, of the American lake, pleaded guilty to the charge of attempted theft.

His young companion will appear in court tomorrow.

The pair admitted attempting to steal a car last night from Macdonald's Sales, 1000 104th avenue.

They were discovered by Enal Siby, 302 104th avenue, manager of the sales lot, and Joe Chialino, 1134 1st street, an employee.

The boys admitted an unsuccessful attempt to steal a car from the lot earlier in the evening.

Bergeron was remanded to Sept. 29.

**Jasper League Meets Tonight**  
Regular meeting of the Jasper Place Community League will be held tonight at 8 o'clock.

The league will be held at 8 o'clock and 100 avenue at 8 o'clock.

Being the last meeting before election of officers, business will consist of a presentation of plans for the coming season.

President F. G. A. Macpherson will be presiding.

**IMPORTANT CHANGES IN TRAIN SERVICE**  
Effective Sept. 25th

The Continental Limited

**WESTBOUND:**  
Train No. 1 from Montreal, Ottawa, Winnipeg, Brandon, North, Saskatoon, Regina, Yorkton, Swift Current, Estevan, and Lethbridge.

Train No. 3 from Toronto, Winnipeg, Brandon, North, Saskatoon, Regina, Yorkton, Swift Current, Estevan, and Lethbridge.

**EASTBOUND:**  
Train No. 2 from Vancouver and Jasper will arrive Edmonton 8:30 P.M. DAILY, and will leave for Saskatoon 9:30 P.M. DAILY.

Train No. 4 from Vancouver and Jasper will arrive Edmonton 9:30 P.M. DAILY, and will leave for Saskatoon 10:30 P.M. DAILY.

Train No. 6 from Vancouver and Jasper will arrive Edmonton 10:30 P.M. DAILY, and will leave for Saskatoon 11:30 P.M. DAILY.

Train No. 8 from Vancouver and Jasper will arrive Edmonton 11:30 P.M. DAILY, and will leave for Saskatoon 12:30 P.M. DAILY.

Train No. 10 from Vancouver and Jasper will arrive Edmonton 12:30 P.M. DAILY, and will leave for Saskatoon 1:30 P.M. DAILY.

Train No. 12 from Vancouver and Jasper will arrive Edmonton 1:30 P.M. DAILY, and will leave for Saskatoon 2:30 P.M. DAILY.

Train No. 26 from Vancouver and Jasper will arrive Edmonton 8:30 P.M. DAILY, and will leave for Saskatoon 9:30 P.M. DAILY.

## JUDGE FLAYS MAN FOR NONSUPPORT

An ex-car fire man was tongue-lashed and sentenced to three months in the Edmonton House of Correction for failing to support his wife and child.

The judge said on Sept. 20, 2015 that the man was "a good-for-nothing."

"You are a fine example for your children," the judge said.

Magistrate A. L. Miller said hearing the testimony by Det. Roy Dent.

"When was the last time you gave your wife money?" asked Magistrate Miller.

"I gave her \$10 or \$15 just before she went to the hospital," answered the accused.

This was on Sept. 10 just before his wife gave birth to her second child.

## Blood Donor Response Good

City residents have responded wholeheartedly to an appeal by the Canadian Red Cross for blood donors.

This was reported today by C. H. Brown, chairman of the city donor drive.

The Red Cross campaign for new donors is necessary to meet the increased demands made on the transfusion center.

A city-wide canvass is "now being carried out by the Red Cross to boost the low supply of blood plasma."

Residential areas have come through with nearly 75 per cent of the calls, said one Red Cross official.

Business houses and firms in the city have been contacted to canvass their employees.

## Open Air Service Will See Film on Prayer

More things are wrought by prayer than this world dreams of

With these words Father E. Brierre, archdiocesan director of CYO in Edmonton today urged all Christians to take part in the second of three services at the Bulletin-Drive-In Theatre "Church of the Open Air" here Sunday.

Father Brierre, who is in charge of this Sunday's service, is also directing the crusade for family prayer in northern Alberta.

"The family that prays together stays together," said Fr. Brierre.

"I am sure that the service will encourage families to go to church as a family, and consequently live together more closely united than ever before," he said.

The Sunday's service will get underway at 8:15 p.m. It will include songs by Tony Biamonte and Mrs. Marie Adams, with Mrs. Imilda Olsen at the organ.

The choir from St. Joseph's Cathedral, under the direction of Father Leo Green will also be heard.

A special film on family prayer, starring Bing Crosby and Ann Blythe will be provided.

**RADIO BACKING**  
Three of Edmonton's radio stations, CKUA, CFBN and CHX are carrying on an extensive campaign in an all-out effort to get people out to the open-air church.

Managers of the three stations are solidly behind the church theme.

City service clubs are doing their part in providing transportation for crippled children and students.

The "Drive-In Theatre" is located on one-half mile south of Jasper avenue on 134th street.

**Chess Club To Meet**  
Edmonton Chess club will resume meetings every Tuesday and Friday at the Recreation Centre at 7 p.m. A. A. M. members are asked to contact Mrs. J. Grant, secretary.

Vanilla is made from dried and fermented pods of orchids.

## GOV'T CALLS TENDER FOR PHONE BLDG.

Major construction companies are soon expected to submit tenders for construction of the Alberta government administration building on the southeast corner of the 10th and 10th streets.

The government will call for tenders on Saturday.

Work on the basement of the new \$2,000,000 building is expected to begin late this fall. The building will be 10 stories high.

The basement of the present administration building on 10th avenue between 10th and 11th streets is being demolished.

The government will call for tenders on Saturday.

## Gov't Rescinds Shooting Order

Antelope hunting will be allowed in the southeast corner of Alberta this fall.

This was announced today by provincial government game authorities.

Earlier, it was decided to close the antelope season, this year, in order to protect the animals, but this order was recently rescinded.

Hunting of the grassland animals will be permitted between Oct. 24 and Nov. 5, in townships 1 to 7, ranges 1 to 10, west of the 4th meridian only.

This is a 42 by 60 mile area in the south-east corner of the province, south of the Cypress Hills.

One animal, either male or female, may be taken during the season.

Special antelope hunting licenses are required, and will cost residents \$5 and non-residents \$50.

272,323 for last year.

**Clearing House**  
Edmonton's Clearing House figures last week topped comparative figures of the year ago by 30 per cent according to figures released today. Total sales were \$21,449.30 as compared to \$16,449.30 for last year.

**HOUSING PLANS** were chief topic of conversation here today, Allan C. Ross, Ottawa, right, president of Canadian Construction Association, and Edmund Lacasse, Quebec, agreed plans would increase housing production, and give small income bracket workers real opportunity to acquire own home.

## Committee to Study Chief Highways Urged

Creation of an advisory organization to study the development of major Canadian roads was advocated here today by Allan C. Ross, Ottawa, Canadian Construction Association president.

Mr. Ross suggested the establishment of a dominion-provincial highways commission in connection with construction of a trans-Canada highway.

"Creation of such a group need mean any infringement of provincial authority," he explained.

The same commission principle, he said, has been successfully employed by the Bureau of Public Roads in the United States.

The commission would study the whole question of major Canadian roads so that the best development of natural resources, tourist trade and strategic requirements would be brought in of nations in terms, and from the standpoint of their development over many years.

Turning to the construction industry, Mr. Ross said its outlook is extremely bright. Canada's economic development is proceeding at a faster pace than that of United States, he said.

Devaluation of the pound will result in a greater flow of building materials to the domestic market, as Britain will buy less Canadian timber.

Construction contracts awarded for the first eight months of this year were almost seven per cent higher than those for the same period in 1948. Housing constitutes approximately 40 per cent of the value of these contracts, he said.

Well over 90,000 dwelling units were completed this year compared with 80,000 in 1948.

Since the war Canada has expanded her manufacturing industry 20 per cent more than has the United States on a pro rata basis. We are also spending more proportionately on housing, said Mr. Ross.

**Cancer Society Makes Grant To Hospitals**

The General and Royal Alexandra hospitals here, and Holy Cross hospital in Calgary will receive laboratory equipment grants from the Canadian Cancer Society, Alberta directors of the society decided at a meeting yesterday in Calgary.

The Holy Alexandra and Holy Cross hospitals each will receive an auto-technique and a microscope, instruments used in the preparation of cancer tissue for diagnosis and study.

The Edmonton General hospital will receive a centrifuge and a high-powered microscope.

**Short Term Teacher Not Problem Answer**

Constant shortage of teachers in Canadian schools cannot be solved by "short term" methods.

This is the finding of the Canadian Education Association, says Dr. M. E. Lazerte, Education dean at the University of Alberta, who returned from a recent visit to the U.S.

"That point alone was one of the most significant features of the entire convention," declared Dr. Lazerte.

By "short term methods" he meant the practice of issuing teaching permits to unqualified persons when shortages in rural areas occurred.

Report issued by the convention noted the deficiencies of the teaching profession, Dr. Lazerte said.

"Included in this report were suggestions with supporting arguments for correcting the shortage," he added.

The report was unanimously supported by the delegates to the convention.

"The remedy, however, is a long-range one and probably will not be effected in all of Canada for at least another decade," said the doctor.

Plan of action set out outlined by the convention included a study of the selection of likely persons for the profession; their education and training; the profession's economic status; and living and working conditions.

Days of the permit teacher are coming to a close, Dr. Lazerte believes.

The profession must discriminate like others and raise its status accordingly," he said.

Ultimate aim is the selective body to have a university degree for every practising teacher in the country.

**BECAUSE I KNOW I CAN DEPEND ON DODD'S!**

## CCF Meet Set For Dec. 2-3

Provincial CCF convention will be held in Edmonton Dec. 2 and 3.

Dates were announced today following a meeting earlier this week in the Edmonton CCF office.

The provincial convention will be held in the Masonic Temple. Details will be discussed at a meeting of the provincial CCF executive committee in Woodworth House.

At Tuesday's meeting, Treasurer Floyd Johnson reported a deficit in the party's election campaign fund.

Acknowledgment was made of a \$50 contribution made by the Edmonton Women's CCF club for winter work up the deficit.

Strong disapproval of central control removal was voiced by the gathering.

Mr. W. H. Williams introduced a resolution urging an aggressive campaign be started in the public with the need for continued rural development.

CCF will protest vigorously and further spiralling of living costs through increased retail, it was agreed national and provincial CCF officers will be asked to specify these concerns, he said.

Well over 90,000 dwelling units were completed this year compared with 80,000 in 1948.

Since the war Canada has expanded her manufacturing industry 20 per cent more than has the United States on a pro rata basis. We are also spending more proportionately on housing, said Mr. Ross.

**Auditorium Meet Tonight**

"Anyone interested in a civic auditorium is invited to attend a general meeting of the Citizens' Auditorium Committee tonight."

Meeting will be held in the Recreation building, 10200 100 street.

Plans will be made for publishing the need for an auditorium in Edmonton, in connection with the money being raised for the city by city burgesses in November.

All representatives of member organizations are urged to attend as are all other interested citizens.

# Ainlay's Fine Service

Decision of Mayor Harry D. Ainlay to retire at the end of his majority term and seek no further public office in Edmonton forecasts the close of a career that has been marked by excellent service to the people of this city.

The Edmonton Bulletin has frequently disagreed with the policies of Mayor Ainlay and in many respects has found his thinking as widely divergent from ours that the possibility of any eventual agreement would be exceedingly remote.

But this very disagreement between the Bulletin and Mr. Ainlay objectively and in a perspective that his closest followers cannot attain.

And seeing Mr. Ainlay objectively, we find many, many things about Mr. Ainlay to unstintingly like and heartily admire.

As a man and a sportsman and as a loyal citizen, Mr. Ainlay has no superior in Edmonton.

He has made friends for this city throughout the length and breadth of the continent. He is highly respected among his majority conferees in Canada.

Mayor Ainlay fought doggedly and persistently for the extension to the Macdonald Hotel when the prospects of that building seemed most bleak and remote.

He is responsible, to a large degree, for the institution of scientific town planning in Edmonton through the recent survey and report.

He has contributed to the advancement of such projects as the auditorium.

He has exposed the nature of more swimming pools, although that project appears to have been lost somewhere in the administrative files.

Harry D. Ainlay was mayor of Edmonton during a period when this city faced its most vexing problems.

We will not say that he solved those problems in a manner satisfactory to our way of thinking. But his diligence, sincerity and honesty and his fine fighting qualities entitle him to exceedingly high marks.

We have criticized Mayor Ainlay whenever we felt he needed criticism, which was often, but that criticism has never dulled our appreciation for his splendid qualities as a man.

# It's Going To Be a Real Hotel

It took a long time to talk the Canadian National Railway System into an extension for the Macdonald Hotel. But now that the officials have made up their minds, they are going to go for it.

President R. C. Vaughan says that the new building in Edmonton will cost \$5,000,000 and will be something to brag about. He says the company realizes its tremendous stake in this city and wants to meet the needs of Edmonton citizens in the best possible way.

This is the kind of co-operative talk that marks a great organization and a great president.

It evidences a faith in this city that is warming to every citizen.

The Canadian National Railway System is the largest taxpayer in Edmonton. It has the largest payroll in Edmonton. And now it has become one of Edmonton's chief benefactors.

All this is as it should be and Edmonton will not forget the excellent relationship that has been re-established between their city and their railroad.

# Responsibilities of Town Planning

The adoption in all pertinent particulars of the report of the expert town planners who recently made the Edmonton survey redeems the good sense of the city council.

The assumption by the council of the part of view and taking decisions in regard to town planning opens up for this city a magnificent prospect for orderly and scientific development and growth.

But the council must remember that in adopting this report it pledges itself to support its recommendations.

It is not possible to take a plan in principle and pick it to pieces in particulars.

Therefore, the council should reconsider with great care some of the legislation which runs directly contrary to the provisions of the report it has just adopted.

For example, it is a grave anomaly to present a money bylaw for the erection of a civic auditorium in a place where the town planning report states specifically it should not go.

If the council is sincere in its support of town planning, it will re-word its decision to provide for the building of an auditorium on the site the town planners recommended, namely, south of Jasper and between 100 and 109 streets.

If the city council is sincere in its support of town planning, it will look very carefully into its decision to build a new town hall in a location where the town planners designate as suitable for another type of building altogether.

These are incongruities that should be reconciled without delay.

# Plainly Up To The Province

It is reported that the Alberta government will be making a taking over of the federal government definitely announces its retirement from that field on March 31.

That view is ridiculous. If the province does not know that the federal government will definitely vacate that field, it is perhaps the only group of persons in Canada who do not know it.

So far as the properties are concerned, the federal government offered the rights

of rent control to the provinces in 1948, an offer which is still open.

There is no reason on earth why the provincial government should not have enabling legislation to take over the federal government's properties.

If there is any hiatus between one contract and the other, this city is going to fall into a rental confusion in which the low-wage earner will be squeezed beyond endurance.

# ODDS AND ENDS

By Harold L. Weir

# We Examine Astrology And Become Perplexed

From time to time our interest has been intrigued by a thing called "astrology" which is said to be a "science" which tells us what is going to happen to us in the future.

We have studied this feature regularly and have found it to be a very interesting thing.

It is said that it is a science which tells us what is going to happen to us in the future.

And this is something that is not omniscient.

It seems that a fellow, called as a "fortune teller," studies the positions of the stars and planets and then he takes the date and hour of your birth, multiplies by the circumference of your spine, subtracts the number of your teeth, and then he tells you exactly what is going to happen to you at any given hour or minute of the day or night.

It sounds pretty good.

So we sought out a friend of ours who knows a little about astrology, and we asked him to tell us what was in store for us.

He said to this friend, "What's all this astrology business?"

And our friend said to us, "Astrology is a science which tells us what is going to happen to us in the future."

It seems that this astrology was a very high class astrology.

It seems that this astrology was a very high class astrology.

It seems that this astrology was a very high class astrology.

It seems that this astrology was a very high class astrology.

It seems that this astrology was a very high class astrology.

It sounded a bit contradictory to us.

But our friend, grinning like we grined, said to us, "This is a very interesting thing."

We have studied this feature regularly and have found it to be a very interesting thing.

It is said that it is a science which tells us what is going to happen to us in the future.

And this is something that is not omniscient.

# How to Torture Your Wife

By Webster

OH, NORTON, I HEARD THE FUNNIEST STORY TODAY AT MARY'S. YOU'LL LOVE THIS.

I HEARD IT!

It is a good point and every citizen can be proud of it.

Let the time come when this Edmonton port would be replaced entirely in the interests of the city and the airport itself.

It is not far from the Edmonton airport and hope to get away with it. Yet before you become too hot under the collar just consider that times are changing rapidly. Edmonton is growing rapidly.

Have you ever watched a big five-engine ship laboring to get above some of the city buildings? It is not a pleasant experience because there is little the pilot can do if the plane does not get above the city.

It is not far from the Edmonton airport and hope to get away with it. Yet before you become too hot under the collar just consider that times are changing rapidly. Edmonton is growing rapidly.

Have you ever watched a big five-engine ship laboring to get above some of the city buildings? It is not a pleasant experience because there is little the pilot can do if the plane does not get above the city.

It is not far from the Edmonton airport and hope to get away with it. Yet before you become too hot under the collar just consider that times are changing rapidly. Edmonton is growing rapidly.

## Edmonton Airport May Be Left Out

Edmonton's airport has a unique history. It has a unique location near the centre of the city. It is a good point and every citizen can be proud of it.

Let the time come when this Edmonton port would be replaced entirely in the interests of the city and the airport itself.

It is not far from the Edmonton airport and hope to get away with it. Yet before you become too hot under the collar just consider that times are changing rapidly. Edmonton is growing rapidly.

Have you ever watched a big five-engine ship laboring to get above some of the city buildings? It is not a pleasant experience because there is little the pilot can do if the plane does not get above the city.

# Letters to the Editor

## Devoted Women

Editor, Bulletin—I would like to express thanks to all the noble ladies who so gallantly stood for hours last Saturday in the cold, dismal weather, collecting funds for a very good cause.

I say that it is my contention that during summer months at least, and for the benefit of babies, children and invalids, Sunday milk delivery should be an equally essential public service as the Sunday delivery of gas, electricity and water to churches, hospitals, hotels and city homes.

STEWART CURRIE, 10025 116th St.

## Desires Correspondents

Editor, Bulletin—Am one of a group of young students at the Technical College, Cologne, Germany. Most of us have been during the war, for years P.W.s in Canada. Now it is our wish to get in contact with some Canadian girls, age 17-22, for correspondence, so we will have some practice and enjoyment by writing letters in English.

## Columns Not Made But Merely Grown

I got my first job on a newspaper at the age of 11. The technique was an editorial page.

I went down to the old Hamilton Herald every afternoon for a week or so, and they let me have the right of seeing me that the circulation manager finally accepted.

"For God's sake, split some body's route and give this kid a job," he said. "I'll never quit you."

After the first year, I made more money as a sales manager than I ever have as a newspaperman. But I didn't have any sense enough or enough of the craft to make a newspaperman.

Then my brother and I got the bug to go into business for ourselves. We started a newspaper in Toronto. As I had a special press, we printed our own news, and we had some papers and cheap posters in the city.

We learned plenty on that job. I backed a former-lawyer candidate for mayor, and I was in the ring. But we all had fun. We were in the "fire side" for a long time. The policy of "equal rights" for all was the main thing.

If I had had with a whip around the face, I could have had a lot of fun. So he made me spend about three hours justifying my stand.

It was just too good for him to take—and I did not get the job. But we were enough, four months later, to get the job.

In the five years I was with them, I never had a serious difference on policy.

Start By Accident

I started writing this column by accident in 1936, and it just grew.

But in 1942 was drawn back into the regular newspaper business. The editor of the Vancouver News, Mr. J. H. McLeod, was a friend of mine. He was a man who had done a lot of good work in the past.

He was a man who had done a lot of good work in the past. He was a man who had done a lot of good work in the past.

He was a man who had done a lot of good work in the past. He was a man who had done a lot of good work in the past.

He was a man who had done a lot of good work in the past. He was a man who had done a lot of good work in the past.

# From Today's News

By DE WITT MACKENZIE

Madame Chiang Kai-Shek still has faith in Nationalist China's ability to cope with the life-and-death struggle created by the southward sweep of the victorious Communists.

She made this statement to me in the course of a long conversation I had with her in New York.

Madame Chiang has no doubt that the Communist armies in the south will be defeated and ultimately driven out of the territory.

She is a woman of great faith in the people of China as a whole, and she believes in Communism or true democracy.

## Some Civil Service Pay Rates Raised

### 'Prevailing Wage' Employees Affected Says Labor Chief

Calgary, Sept. 22.—(CP)—Labor Minister Mitchell told the Trades and Labor Congress of Canada convention yesterday that some civil service workers were to receive wage and hours improvements.

Employees affected are "prevailing wage" workers who are hired by the dominion at going wages of pay in various areas.

**CHANGES EXPLAINED**  
Changes announced by the minister to go into effect Oct. 1, are:  
1. There will be annual increases in wages, starting with one week in the first year of service.  
2. Minimum holiday pay will be observed, plus three others dependent on local custom and the opinion of the minister concerning pay.  
3. Employees will get time-and-a-half pay for overtime unless they have better arrangements.  
On vacations, the minister said that in the first year employees would get a week off after six months of service. After two years they would get two weeks.

Three days special leave would be given to male employees on marriage, and to all employees on death in their immediate families.

**SICK LEAVE**  
On sick leave, the government would follow the general practice of private employers in not providing this, but it would consider introducing group plans for those not already having them.

Mr. Mitchell agreed with previous speakers in attacking the Taff-Hartley labor law of the United States.

"As long as I am minister of labor," he said, "there will be no Taff-Hartley act in Canada."

He said employees and employers should be allowed to work out their differences without too much government pressure.

**2 Children Die As Result Of Fire In B.C.**  
VICTORIA, B.C., Sept. 22.—(CP)—One little girl burned to death and her sister died of burns following a fire Tuesday night in a two-room frame cabin at Shawanigan Lake, 40 miles north of here.

Two-year-old Wendy Jean Petersen perished in the fire. Angela May, aged three, was rescued by her grandfather, E. Brandan, but died in hospital at Duncan, B.C.

The mother of the children had left the cabin separately to visit her parents.

Cause of the fire is not known.

**Calgary Plans Symphony**  
CALGARY, Sept. 22.—(CP)—In preparation since the start of the Second World War, the Calgary Symphony orchestra got a new lease on life last night when directors of the old organization turned over assets and charter to a new board of directors.

A new symphony orchestra already is in rehearsal for the first concert which will be held Oct. 24 under the baton of Clayton Hare.

**Reds Attack Fgl**  
VIENNA, Sept. 22.—(AP)—A group of young Communists tried last night to overthrow the automobile in which Chancellor (Premier) Leopold Figl was leaving a political rally at Mollath, about 12 miles south of Vienna.

The driver was able to get away before the Chancellor was harmed. A number of police were injured in scuffling that followed.

**Kitten-Drowning Try Fatal To Man**  
ALENCON, France, Sept. 22.—(Reuters)—Henri Vilele, 57-year-old local cooper, was trying to drown a kitten in a pond here today when he fell in and was drowned.

The kitten scrambled to the edge of the water and disappeared.

**RENTREBROW, Scotland, Sept. 22.—(AP)—A seven-ounce bird burst on a night-time airplane yesterday, and forced it down.**

The bird hit the windshield of a British European Airways passenger liner on its takeoff.

The pilot, fearing cracked glass would be blown into the cabin, landed for repairs.

**Bishop Consecrated**  
HAMILTON, Sept. 22.—(CP)—Amid colorful splendor and with ancient church ritual, the Very Rev. Walter E. Bagnall was consecrated Seventh Bishop of the Diocese of Niagara in Christ's Church Cathedral yesterday.

It was the fourth time that a Bishop of Niagara had been consecrated in his own cathedral church.

**OTAWA, Sept. 22.—(CP)—F.M. MacPherson of Ottawa has been re-appointed a commissioner on the Board of Transport Commissioners.**

The Department of Transport announced yesterday. His term of office expired today and he was re-appointed for a further 18-year term.

**New Archbishop**  
CARDIFF, Sept. 22.—(CP)—Dr. John Morgan yesterday was installed as the new Archbishop of Wales at a ceremony in the cathedral, bomb-scarred Llandaff Cathedral. He succeeded Dr. David Fraser, who resigned because of ill health but still retains the Bishopric of St. David.

**Executive Dies**  
PITTSBURGH, N.J., Sept. 22.—(AP)—Sam A. Caparelli, 60, sales manager for International News Service and assistant sales manager for King Features Syndicate, died yesterday.

**Man's Story**  
A man who was killed by a car in a collision with a truck in a parking lot in New York City yesterday was identified as a member of the New York City Police Department.

The man, who was killed by a car in a collision with a truck in a parking lot in New York City yesterday, was identified as a member of the New York City Police Department.

**DIRECTING** construction and opening of new Jasper Place Theatre, in view of E. J. Stansland, president of Royce Circuit Theatres Ltd., who started in show business more than 10 years ago with theatres at Barre, Athabasca and Westlock.

## Manitoba Politics to Lose Prominent Barrister

By Reno Rinaldi  
WINNIPEG, Sept. 22.—(CP)—Manitoba will lose a colorful gladiator when the term of the present government expires.

Andrew McDonald, millionaire merchant. When the Manitoba Appeal Court granted the Administration Letters over his head, Judge Stubbie called a public meeting at which a resolution was passed calling for the Manitoba Legislature to inquire into the Appeal Court's action.

Manitoba Superior Court Judge Stubbie called the Federal Justice Minister to remove Judge Stubbie from the bench. A Royal Commission inquiry and his removal followed.

The fact that Judge Stubbie, in public addresses, had often stated that "there is one law for the rich and another for the poor" was brought out at the inquiry. One Commissioner described him as a "judicial rebel."

His retirement will eliminate a long career in law and politics during which his pungent utterances in parliament "to support what I consider right, to denounce what I consider wrong, according to the best of my ability and conscience, guided by my conscience—without fear, affection or favor."

He has never hesitated to strike a blow for what he believed a just cause, even though this meant his dismissal from the bench.

The dismissal came in 1933 after he was found guilty of judicial misconduct. As Manitoba Superior Court Judge, he had refused to grant letters of administration to a plaintiff had been reported missing the heirs in the estate of Alexander McDonald.

**Lands Safety**  
MEXICO CITY, Sept. 22.—(AP)—A plane carrying members of the Puebla, Mexico, football team on a flight from Guatemala City made an emergency landing last night in the southern state of Oaxaca. None of those aboard was injured. The cause of the crash was not reported.

**Deaths Yesterday**  
By The Canadian Press  
OWEN SOUND, Ont.—Henry Fowler, 84, one of three surviving members of the contingent which quelled the 1865 North-West rebellion, died yesterday.

TORONTO—Charles Rostenberg, 52, well known in Toronto insurance circles, died yesterday.

SUTHERLAND, Ill.—James P. Martin, 156, civil war veteran who was on guard duty at the Ford theatre in Washington the night President Lincoln was assassinated, died yesterday.

CHICAGO—George E. Q. Johnson, 78, former United States district attorney who had been in prison for income tax evasion, died yesterday.

STURGEON BAY, Wis.—Leonard Reiter, 43, who developed the science of life detection, died yesterday.

SANTA MONICA, Calif.—Robbin Coons, 44, Hollywood correspondent for the Associated Press from 1928 to 1945, died yesterday.

NEW YORK—Mrs. Henry Marchant, wife of the former secretary of the United States treasury, died yesterday.

TORONTO—Florence P. Pettit Smith, 85, widow of Mr. Justice Robert Smith of the Supreme Court, died yesterday.

**Early the following morning, a detective rang Ellie's doorbell. "I have a warrant for your arrest," he said. "According to the coroner, your husband died of cyanide poisoning, and the druggists have reported that you bought a bottle of the stuff two weeks ago."**

"That's right," said Ellie. "Martin used the cyanide to kill the insects in the laboratory over the garage."

"I never heard of his being interested in bugs," said the detective. "Can I see this laboratory?"

Ellie led the way up the garage stairs and opened the door. There was nothing in the room but a few bits of junk and an old bicycle.

**HERE COMES THE PUNCH**  
"I'm sorry, but you'll have to come along," said the detective. "You're the only person who figured to profit by Mr. Quin's death."

"I swear I didn't do it," said Ellie. "Both Martin and I knew he wouldn't live long, and we signed an agreement which explained everything. It's in my study."

She ran into the room, opened the wall safe and took out a brown envelope, but when she tore it open there was nothing inside but a piece of blank paper.

"Blank, that is, except for one word pencilled in a childish scrawl: 'Surprise!'"

And that's how it was arranged. An agreement was signed and loaded in the wall safe, and the couple went on living together.

Of course, the neighbors guessed a lot, particularly when it was whispered around that Ellie was still seeing the young man, but their talk seemed to make no impression on Martin. Instead, he busied himself with a new hobby—the study of insects—and spent most of his waking hours in the spare room over the garage, mounting butterflies and beetles on small exhibit boards.

"I wouldn't mention this around," he told his wife. "As it is, people think I'm not quite all there."

**OLD MAN DIED**  
One evening last after Ellie had brought him the usual glass of warm milk, Martin began to have convulsions. Ellie phoned the doctor that her husband was having a heart attack, but by the time he arrived the old man was dead.

The doctor examined the body, then the contents of the safe, and later the corpse, together with the empty milk glass, was taken away.

## Farm Youth Has Sentence Remanded Year

CALGARY, Sept. 22.—(CP)—Moose Jaw, Sask., district farm youth, yesterday was remanded one year for sentence following conviction on charges of stealing, forging and cashing six cheques worth \$197.

"I'm sure I'll never get into trouble again," Rekunyk said when the magistrate expressed the hope the youth had "learned a lesson."

Rekunyk, who earlier had pleaded guilty, was advised to return immediately to his home on the farm.

**New Archbishop**  
CARDIFF, Sept. 22.—(CP)—Dr. John Morgan yesterday was installed as the new Archbishop of Wales at a ceremony in the cathedral, bomb-scarred Llandaff Cathedral. He succeeded Dr. David Fraser, who resigned because of ill health but still retains the Bishopric of St. David.

**Executive Dies**

"BRIGHT LIGHTS" have come to Jasper Place. Glittering neon lighting of new Tivoli theatre sheds its glow over 149 street and Jasper Avenue as it opens its doors tomorrow night showing *The Farmer's Daughter* with Loretta Young and Joseph Cotton.

## Roxy Opens New Theatre To Serve Jasper Place

Curtain goes up tomorrow on a new theatre to serve Jasper Place. Located on 149 street north of Jasper Avenue, the Tivoli will open its doors tomorrow. Bringing motion picture entertainment to this fast growing community for the first time, the theatre will also add another house to the string of Roxy Circuit Theatres Limited.

Construction of the new show house was started last spring under the direction of Veterans Showman Albert E. Staniland, who is president of the theatre group.

With patrons' enjoyment in mind, Mr. Staniland has made every effort to make his 60-seat house as comfortable as possible. Seating in the theatre are upholstered and designed for maximum comfort. The building is air conditioned for summer coolness and winter warmth, with fully modern equipment.

Two of the finest Century projectors have been installed to illuminate the 13 by 18 feet screen. This equipment, Mr. Staniland says, is being accepted by many theatre operators as the best in its field. Synchronized with the projectors is popular R.C.A. sound equipment.

Installed by Dominion Sound Equipment Ltd. its high fidelity reproduction will give patrons full tonal range of music and sound.

Mr. Staniland entered the show business in 1937 when he took over Audien Theatre at Wetaskiwin, three theatres at Barrhead, Westview and Athabasca from the pioneer theatre operator, W. H. B. Sharp.

The company later acquired the head district in 1933 and saw the town spread over part of his home-land when the railway arrived. He entered the lumber business.

Born in Kensington, England, Mr. Staniland settled in the Barrhead district in 1913 and saw the town spread over part of his home-land when the railway arrived. He entered the lumber business.

HATFIELD, England, Sept. 22.—(AP)—Lord Queensborough, 88, former British Conservative party leader and one-time business executive and financier in Canada and the United States, died today at his home here.

ATTRACTIVE FRONT of new Jack Forman Penguin hat and shirt shop on Jasper Avenue is eye-catching and appealing. New headquarters for famous penguin is just across street from old stand and has been completely remodelled.

**Forman's Hats, Shirts Moves**

By JOHNNY HOLINSKI  
Something new has been added for the main residents of Edmonton. It's the new Jack Forman Hats and Shirts Shop located at 10124 Jasper Avenue.  
The store, owned by Jack Forman and Doug Kilburn, has been entirely redecorated and remodelled. Walls are finished in turquoise and cream and the floor is of solid linoleum with a fashionable design. Shop fixtures are of handsome light birch panelling.  
The rear of the store houses the firm's office.  
About the only thing to remain the same is the penguin, shop insignia, which is on windows in gold and will also be featured on a neon sign in front of the shop.  
Mr. Forman came to choose this insignia years ago while reading a comic book to his children, and used it on his old shop.  
A large quantity of hats are displayed in cases placed in a zig-zag pattern to enable greater visibility and to facilitate choice of color and style.  
Among the choice of hats, the shop features such popular brands as, Borsalino, Stetson, English, Chapeau, Billmore, Malory, Smith-Hill and Brock.  
The latest in steaming and gold finishing on hats is at the service of the public. The hat is creased to suit the personality of the person.  
Arrow, Tootie, Futzythe and B.V.D. are only a few of the famous brands of shirts carried by the new hat-and-shirt shop.  
These may be purchased with

various types of collars, with or gloves, sweaters, belts and clothes without French cuffs.  
Mr. Forman also has a sufficient stock of sport-shirts, socks, ties, and Doug Kilburn, who each have

# Hay Fever, Hives Get New Attack

## New Treatment Reported For Allergic Diseases

By Paul F. Ellis

ATLANTIC CITY, N.J., Sept. 22.—(UP)—Development of a new attack on allergic diseases, such as hay fever and hives, was announced today at the annual meeting of the American Chemical Society.

Most allergens and wheezers now use one or more of the so-called antihistamine drugs in an attempt to throw off hay fever. Many of the drugs have unpleasant side reactions, such as drowsiness.

A report from a group of Philadelphia chemists disclosed that the allergens can be attacked by reducing the doses of the antihistamine drugs and combining the treatment with other types of drugs.

### EXTENSIVE TRIALS

It pointed out that when the body manufactures a chemical known as histamine the result is hay fever or other allergic symptoms. Thus, the antihistamines were developed to counteract the action of the histamine.

The Philadelphia group, headed by Dr. Gustav J. Martin, research director of the National Drug Co., said that with the new approach to allergens the amount of conventional antihistamines can be reduced so that side reactions such as drowsiness and nausea are minimized.

The new technique is now being put through extensive human trials.

### MOST PROMISING

The chemists said that several types of chemicals were found to inhibit the formation of histamine, but that the most promising were the flavonoids, which are widely known for their "vitamin P" or anti-scurvy effect.

## CURTAIN TIME

CAPITOL—"COME TO THE STABLE." Features 12:30, 2:30, 4:31, 7:31, 9:38.

RIALTO—"TUNE CLIPPER" at 1:00, 3:37, 6:34, 8:51. "SHOCK-PROOF" at 2:18, 4:53, 7:32, 10:03.

EMPRESS—"EDWARD MY SON." Features at 12:13, 2:38, 4:51, 7:08, 9:38.

STRAND—"MANHANDLED" plus "SPECIAL AGENT."

Under their theory, it is best to prevent the formation of histamine in the body in the first place rather than give drugs to counteract its action.

The chemists found the vitamin P materials "to be the most active" in inhibiting the action of histamine, an amino acid in the body which converts into histamine.

# Inside Hollywood

By Gene Handaker  
(For Bob Thomas)

HOLLYWOOD.—(AP)—You got problems? Listen to those of moviemakers and exhibitors.

Shooting on a picture starts. Then, producer Dore Jochay told the convention of Theatre Owners of America:

"There's weather. There's sickness, accidents, calamities of all kinds. There's the time the film isn't in the camera—the time the camera breaks down—the time the lights go out."

"There's the time the visitor trips over the cable—the time the makeup needs repairing or the hairdo falls off—or the strap, or the evening dress slips a little too low."

"There's the business of looking at rushes and discovering that the scene that sounded so wonderful in the story conference doesn't play at all. There are the day days. You find you're wrong. You've got to go back, rewrite, and get it on the set again."

### AND PRESSURE GROUPS

Then there are pressure groups. Schrey said:

"We are constantly badgered by the people who are against drinking, for drinking, the people who are against smoking, the people who are for smoking..."

"The morticians, architects, automobile manufacturers... the motel owners, the dog lovers of America, the people who are for short skirts... 'If we could manage to be every-

## Indian Charged With Assaulting Macleod Girl

LETHBRIDGE, Sept. 22.—(UP)—John Vieille, 21, a Blood Indian who allegedly criminally assaulted a 16-year-old girl last Monday, was captured yesterday by RCMP officials following a 36-hour manhunt.

Vieille allegedly grabbed the girl on a Macleod street Monday night.

# High Cost of Housing Attacked in Senate

OTTAWA, Sept. 22.—(CP)—High cost of housing and low incomes are the real problems of the masses of home-seekers, Senator John T. Haig, opposition leader in the Senate, said yesterday.

He opened debate on the address in reply to the speech from the throne in which he found little to criticize.

Federal and provincial governments would have to assist in providing housing the homeless could afford or enact legislation bringing minimum wages to the level demanded by housing costs, he said.

### LOVE SPEAKER

Senator Haig was the only speaker at today's brief Senate sitting. Senator Wishart M.L. Robertson, government leader, will resume the debate tomorrow.

Commenting on the large number of senators appointed since the last session, Senator Robertson urged newcomers to give their views on national problems by participating in the debate.

Senator Haig touched briefly on subjects dealt with in the speech from the throne.

He spoke at greater length on the proposal to abolish appeals to the judicial committee of the privy council.

**SENATE BELIEF** "We believe that, with proper safeguards, the Supreme Court of Canada should be made the final court of appeal," he said.

He believed more than 90 per cent of the lawyers in Canada would approve the move. However, he agreed with the Canadian Bar Association suggestion that the change should be made carefully and after all concerned had been given a chance to know exactly

# The Yankees Blow One

I see by the papers where New York Yankees blew a ball game to Chicago White Sox yesterday.

This unexpected hot-foot at the expense of the punchless (generally) Pale Hose went down well with the Yankee Stadium boo-birds. Pennant contenders aren't supposed to give anything away to a club that already has nothing to look forward to but next pay-day and next season, which pretty well describes the White Sox.

It wouldn't take much to change the name Yankee Stadium to Sorrow Stadium, should the Yankees, no doubt horribly chagrined by the circumstances of yesterday's reverse, fail to knuckle down again to winning the American league pennant.

Which reminds that there's a lot of talk about this team manager and that being in line to win the major leagues' manager-of-the-year award.

Really, though, this won't be—can't be—any kind of a guessing game if the New Yorkers qualify for a World Series split.

Right now they can measure one Casey Stengel for the award must go his way—Cards' Eddie Styer and Phillies' Ed Sawyer notwithstanding.

## They Said He Was (a) a Clown, (b) a Chucklehead

Stengel took charge of the Bombers last spring in an atmosphere best described as 'they laughed when he sat down at the piano.'

He was described as a clown and a chucklehead. 'He's got his brain in a sling when he comes to big league managing... the critics said of St. Case.'

But if Stengel heard—and how could he help it—he didn't bother to clock back at his detractors. Actually the Irishman, who managed in Boston and other big-league centres, needs a job of any kind he needs a hole in his head.

He has, to continue wearing out a phrase, nothing but money.

Consequently he really didn't much need to care what the wise guys thought and said and wrote about him. If things didn't pan out he could always go back to counting that money.

All this last spring... down in the deep south.

By now it's agreed that things have 'panned out' for Stengel. Certainly, win or lose the American league title to Boston Red Sox, he has done a magnificent job with the injured-plagued Yankees.

Even Beantown newspaperman Dave Egan, Stengel's bitterest critic, would have to admit this.

## The Bird—Stengel Fashion

In his playing days Stengel was the kind of loosey-goosey performer who could doff his cap to an umpire—as he did on one occasion—whereupon a bird flew out of the top-piece.

But also he was the sort who could hit clutch homers in a number of World Series games.

His previous major league managing chores have been put in at the joy-stick of some pretty awful clubs... bad Brooklyn and Boston teams, for instance, that couldn't get out of their own way.

Considering the talent at his disposal he was cast in anything but the role of push-button pilot.

They said further, when his appointment as manager of the sedate, all-American Yankees was announced last winter, that this alleged buffoon couldn't have taken on a job for which he was less suited.

And maybe Casey Stengel is a clown and a chucklehead. Maybe he doesn't belong in the big leagues.

But the fan who keeps his eye peeled on the pennant races only knows what he knows. Which is, that with just 12 days to go to the wire the American league standings show New York on top.

## Ponoka Dog Trials Straits for Sunday

PONOKA, Sept. 22—First annual fall trials will be sponsored here by the Ponoka Sporting Dog Club on Sunday.

Trials will consist of open and closed trials, and open all-day trials. Judges for the dogs are Glen Lewis and Don Sweet. Ponoka is the site of the trials.

Trials will be held at the site of the trials. The date is Sept. 22. The trials will be held at the site of the trials.

Pat St. Peter, veteran Edmonton trainer, will handle Miller's ten trials. He will handle Miller's ten trials.

## HE LOOKS GOOD, TOO

# Who Said Reg Clarkson Couldn't be an Eskimo?

Less than a week ago Reg Clarkson wouldn't have been at the Eskimo for love, money or risk.

But last night he was every inch an Eskimo.

Throughout the summer Clarkson led the Big Four baseball league in everything except hot dog consumption as his teaming last night's Edmonton Eskimos in the final series.

Right now the Eskimos (football species) know Clarkson can get topped up on the gridiron.

Last night's Eskimo, one-time halfback as with University of British Columbia Thunderbirds, took part in an Eskimo drill for the first time this year. He is being counted upon to take up the slack caused by loss of Earl Riley, who is sidelined with a broken arm.

And coach Alvin Stukas figures he'll do it too. If last night's performance is an indication of his ability.

Another new face on the premises was that of Tom Cleary, former U.S. professional who has been added lately with Calgary Stampeder.

Cleary is a linebacker and has played with fullback Pat West in other years. It is possible he will sign with Eskimo if the club is able to get the green light to secure an American replacement.

# Badman Newman Victim Of Pat's Flying Feet

The Pat McGill Fan Club, which takes in just about every 'racin' addict in town, today is prouder than a duck hunter who has bagged his limit.

This pre-season attitude blossomed at the Cow Palace last night as the mal-gami's favorite son locally came through in a time racing finish to win the machines from Lou (They Hate Me) Newman.

The roof all but blew off as the McGill dropkick in the third and deciding fall in the main event.

McGill's flashing feet also played the leading role in the first fall, Newman going down after 20 minutes of much waiting and gloom in the Victoria Strangman then worked over McGill's spine as he squared the match with a back breaker at 5:30. He really was easy on McGill, however, and the Irishman was back as big as you please at the end of the round.

## HARRY IRVING LEADS MCGILL TO GRID WIN

MONTREAL, Sept. 21—(CP)—McGill Redmen crushed Ottawa University 20-0 in exhibition game before 7,000 fans at Molson Stadium to inaugurate the 1949 College Football season.

Leading Harry Irving, former Calgary Stampeder, scored on a 140-yard run, and Ed and Normie scored on touchdowns.

Irving's forward passes were a feature. In the second quarter he threw to Fred Wilton, another ex-Stampeder, and Dave Hackett for touchdowns.

# on the TOWN

By J. D.

What will happen when rent controls are lifted next spring seems to be causing a lot of uneasiness around Edmonton these days.

Many more tenants of the Canadian Legion have been paying rent from time to time since the Edmonton government to keep controls on.

Edmonton officers fear a bad upward spiraling of rents if the controls are taken off in the next few months.

In the legion offices today I was shown a number of letters from war veterans, tenants and wives of war veterans.

One woman writes to say her family pays \$180 a month for a suite on the south side.

An RCMP veteran protests his rent was bumped from \$25.50 to \$45 per month after his lease expired.

Another wrote to protest a monthly rental rate from \$28 to \$35.

**"ALLURING" PROSPECT**

I was shown a newspaper clipping advertising sale of a business block in which there are 10 rooms, all rented to old and reliable tenants—the very best.

The owner promises to build a new, much larger and more modern building on the same site and to replace all the old tenants.

Now the main trouble with letting rent controls go is the long time it will take the city to build new housing to replace the old.

One thousand new members and 2,000 "cent-a-day" volunteers will be sought by the Edmonton Safety Council.

The council met last night at the annual meeting of the council at the city hall.

The president congratulated the members and thanked them for their support.

The council will be asked to approve a plan to build a new building on the same site.

## NEW TOURIST GUIDE IS ISSUED FOR CITY

Edmonton has a new tourist guide, a snappy booklet designed to assist strangers visiting the city.

Put out by the Tourist Information and Accreditation Bureau of the Chamber of Commerce, it boasts a blue cover sporting several attractive photographs of the city.

Four pages are devoted to "where to go," while the inside fold contains a city tour map donated by the Rotary Club of Edmonton.

## Municipal Government Costs Are Reviewed

Methods of reducing municipal government administration costs were discussed at a meeting of the Alberta section of Municipal Finance Officers' Association of the United States and Canada at Macdonald hotel yesterday.

Three plans were submitted to the meeting by Miner B. Phillips, Chicago, executive director of the association.

They are: Curtailment of desirable but not essential services. Mechanization of repetitive routine in clerical operations; and the mechanization of such services as garbage collection and street cleaning.

**BIG SAVING** Mechanical routine, such as collection of garbage, can result in substantial savings through elimination of need for additional staff.

Los Angeles county, Mr. Phillips stated, had adopted this practice and now was saving \$600,000 annually.

Centralization of such services as purchasing, billing and collection can also effect considerable savings. This centralization would eliminate departmental overlapping.

Commenting on decentralization of the city, Mr. Phillips stated that Canada would benefit through increase in tourist traffic, and also with attract American capital for development of natural resources.

D. McQueen, vice-chairman of Alberta section, presided over the meeting, which was attended by municipal and provincial government officials.

Mr. Kelly also received one of the prizes and three of the \$100 awards.

Second Tegner award, made by Geoffrey Taylor, University of Alberta, was made to Mr. Taylor, 10314 115 street, and Mr. Redmond, who finished in a dead heat.

Mr. Kelly also received one of the prizes and three of the \$100 awards.

Second Tegner award, made by Geoffrey Taylor, University of Alberta, was made to Mr. Taylor, 10314 115 street, and Mr. Redmond, who finished in a dead heat.

## EDMONTON BULLETIN

Phone 42111 EDMONTON, ALBERTA, THURSDAY, SEPTEMBER 22, 1949 Page 13

## Civic Meet Asks Proper Zoo for City

Edmonton should have a zoo, properly located and properly cared for, devoted primarily to native animal and birds, and supported by either public funds or a combination of public and private funds.

This was the unanimous conclusion of a meeting of the Edmonton Civic Association held last night at the city hall.

The meeting was held to discuss the proposed site for a new zoo, and to consider the various proposals for its location and support.

The committee favored the site of the old city hall, and recommended that the city should acquire the site and build a zoo on it.

The committee also recommended that the city should support the zoo, and that it should be open to the public.

## Gov't Problems To Be Discussed

Residents of local government will be discussed by representatives of Alberta cities, towns and villages at an annual convention in Calgary Oct. 6 and 7.

Following months of annual convention of Municipal Association of Alberta will be held in Calgary.

## Alberta Polio Cases At 86

Another polio case from rural Alberta brought the polio total for the province to 86 today.

Two Edmonton girls were reported as victims of the disease yesterday.

A six-year-old boy of Munson is the latest victim.

**FIRST SCHOLARSHIPS** to be awarded by City of Edmonton were presented yesterday by Mayor Harry D. Ainlay to ex-Garneau High School students Frank Herbert Kelly (centre) and James Edward Redmond. Awards are worth \$300. Winners of six city scholarships were announced Tuesday. In background is Mrs. Thomas Peter who presented seven \$5 IOUE awards.

## Mayor Makes Awards Here

Mayor Harry D. Ainlay yesterday returned to Garneau High School, where he was formerly principal, to present Edmonton's first 2000 scholarships to ex-Garneau High students.

Presentation of two Tegner awards, covering two years' university fees for undergraduate study, and seven \$5 IOUE awards to outstanding Garneau High students, were also made at yesterday's ceremony in the school auditorium.

The two Edmonton scholarships for students entering University of Alberta last year, went to James Edward Redmond, 10314 115 street, and Frank Herbert Kelly, 5405 101 street.

Mr. Kelly also received one of the prizes and three of the \$100 awards.

Second Tegner award, made by Geoffrey Taylor, University of Alberta, was made to Mr. Taylor, 10314 115 street, and Mr. Redmond, who finished in a dead heat.

Mr. Kelly also received one of the prizes and three of the \$100 awards.

# L May Add Mile To Redwater

By Don Flach

Another mile may be added to the north end of Redwater oilfield, this may be proven by a drilling program presently being started by Texaco Exploration Company and Frontenac Oil Company on a half-section of Crown Reserve.

The first well, No. C1 will be drilled on lot 81-24-24, in the southeast corner of the half section which is half a mile north of the quarter section being successfully drilled out by the team of Anglo-Hume oil companies and a half-mile northwest of Imperial's Egmont No. 1 well.

Over \$800,000 was paid for rights to the half section by Texaco-Imperial team, Brinkhoff Drilling Company are contractors, and are rigging for the first well.

Meanwhile seven-inch casing has been set in the A3 and B3 wells of Texaco-McCull and they will be drilling out plus later today. No. B4 is drilling at 2710 feet.

Four producers have been completed by Texaco-McCull since entering the Redwater field several months ago and production is being trucked to Imperial facilities near Redwater.

**POSSIBLE EXTENSION**  
Oil City Petroleum's first well at the south end of the Redwater field is presently drilling at 2710 feet. It is about two miles south of proven limits of field and drilling operations have been underway for about a week.

Drilling has been completed to the top of the D3 at the well being drilled by the team of Anglo-Hume-Calgary and Edmonton on the west

## Whiskey Price Drop Hinges On Supplies

The faster Alberta drink imported Scotch whiskey the sooner it will become cheaper.

Liquor control board officials expect a cut of about 10 cents a bottle in retail price of new supplies of Scotch whiskey.

Orders placed subsequent to the devaluation of the British pound will cost less as a result of the devaluation, and the price cut will be passed on to individual purchasers.

**Livestock**

EDMONTON, Sept. 22.—Total receipts: Cattle 688, calves 208, hogs 487, sheep 24.

Thursday's cattle market continues active on all good butcher steers and heifers. In-between grades were quiet. There was a difference about purchasing at the quality butcher cattle. All good live demand and the morning's sales were good.

Ed-Ridge No. 2, drilled on lot 83-26-24, has been abandoned with bottom at 2306 feet. No. 3, which was found but not sufficient to make a commercial well, is being drilled out.

Four producers have been completed by Texaco-McCull since entering the Redwater field several months ago and production is being trucked to Imperial facilities near Redwater.

**POSSIBLE EXTENSION**

Oil City Petroleum's first well at the south end of the Redwater field is presently drilling at 2710 feet. It is about two miles south of proven limits of field and drilling operations have been underway for about a week.

Drilling has been completed to the top of the D3 at the well being drilled by the team of Anglo-Hume-Calgary and Edmonton on the west

## Cost-Aid Change Sends Goods Down

### Industrials Push Ahead; Base Metals Also Climb

TORONTO, Sept. 22.—(CP)—Selling pressure appeared in gold while industrial issues found increased demand on the Toronto Stock Exchange today.

A wide list of junior and senior gold issues were pushed upward following news from Ottawa that the Emergency Gold Mining Assistance Act would be amended, reducing gold tax in 1950.

Railway metals moved slightly higher on small gains and gold weakened under slight realising sales yesterday's strong advance. Volume was about 1,300,000 shares.

Senior goods dropped fractions and juniors showed losses ranging up to 10 cents. Upper Canada Mines was an exception, finding break support.

Papers featured a strong industrial list. Gains raised from fractions to more than two points with some industrials settled in new highs.

Gains more than doubled losses in base metals. The group was higher, settled in mid-session and then resumed its advance towards the close.

**Railway Stocks  
Pace Advance**

NEW YORK, Sept. 22.—(AP)—Demand for railway stocks dominated a rising market today.

With the carrier group ranged to an extreme, the group was most advanced around a point or more. Highs were reached by the group.

Business added momentum following the announcement that steel workers would extend operations to Oct. 1 in protest of the president. Turnover was at the rate of 1,300,000 shares.

Canadian issues were mixed. Hiram Walker added 1/2. Dome Mines dropped 1/2. Distillers Secured and Canada Pacific eased 1/2.

On the Lake Shore eased 1/2. On the Great Lakes was up 1/2. On the Great Lakes was up 1/2.

**Con. Smelters  
Leads Metals**

MONTREAL, Sept. 22.—(CP)—With several leading issues finding gains up to two points, copper and nickel were the most advanced around a point or more.

Business was along at a sharp pace with an industrial group of 67,000 shares. Mining volume was 345,000 shares.

Papers and base metals were the hardest groups on the board while utilities were narrow and quiet.

Consolidated Smelters led the metal advance with gains of 1/2. On the Great Lakes was up 1/2.

On the Great Lakes was up 1/2. On the Great Lakes was up 1/2.

**Hanna Pete  
Is Top Trader**

CALGARY, Sept. 22.—Slightly easier trend held for trading in western oils today and volume was 100,000 shares.

## Bank Retains Oil Consultant

Canadian Bank of Commerce has retained the services of John O. McCallum as petroleum consultant. Mr. McCallum was formerly executive vice-president of the California Standard Company and was in charge of exploratory operations for Standard Oil of California in western Canada during the last 11 years.

He had resigned the latter position recently and upon arrival in Calgary as petroleum consultant.

## Wheat Prices Close Strongly

CHICAGO, Sept. 22.—(CP)—Wheat futures prices strengthened in late trading today, largely reflecting firm prices in the Kansas City and Minneapolis futures markets.

September contracts of grain and land moved erratically, since today was the last day for trading in the futures market. September contracts remaining outstanding were 1,300,000 bushels.

Most wheat contracts were settled by delivery of the actual grain.

The September corn contract slipped sharply at the finish but was 1/2 to 3/4 below the previous close. Wheat was higher to 1/2.

Wheat closed 1/4 to 1/2 up, rice 1/4 to 1/2 up, soybeans 1/4 to 1/2 up, and land was 1/4 to 1/2 up.

**Closing quotes:**

## Demand Ups Futures To Additional Highs

WINNIPEG, Sept. 22.—(CP)—Coarse grain futures again registered new highs in trading on the Winnipeg Grain Exchange today, with aggressive demand for both grains, particularly barley.

Hedging were plentiful in oats but light in barley. Shippers and United States interests bought oats, while American houses and processors bought rice.

Rye made some good gains under some shippers demand and buying by locals.

A few processing orders came for rye.

In the only report trade reported, Israel was allocated a small amount of wheat.

**QUOTATIONS: (Basic Lakehead)**

## Allegiance Oath Demanded by TLC

### Opponents Claim Move Like U.S. Taft-Hartley Laws

CALGARY, Sept. 22.—(CP)—An oath of allegiance to the Crown for officers of the Trades and Labor Congress of Canada was ordered yesterday by the TLC's annual convention.

Passage of the amendment to the TLC's constitution was adopted after a short but sharp fight in which some delegates contended the action was a Canadian version of the Taft-Hartley Act of the United States.

The fight over the proposal did not appear to be on a left-versus-right basis, as have some earlier controversies in the convention.

**SOME OPPOSITION**  
Some delegates opposed it on the ground Communists would sign any kind of affidavit. However, it was backed up by the convention's constitution committee, and it got an overwhelming endorsement.

Earlier, the right-wing section of the convention made headway as delegates adopted a change in voting procedure giving right-wing international unions more convention strength.

The constitutional amendment on loyalty would compel all candidates for congress office to swear allegiance to the King and to take an oath that they are not associated with any group subversive to Canadian principles.

T. Kristiansen of Victoria, member of the Brotherhood of Railway and Steamship Clerks, declared it would be "very improper" for the TLC to demand the oath of allegiance.

**OTHER ALLEGIANCES**  
Arthur Marnet, Montreal delegate, suggested that those opposing the motion "might belong to other organizations that have other allegiances."

A number of delegates hotly challenged his implication. The convention referred back to its constitution committee a recommendation that the TLC president be given power to suspend unions. This now is vested in the seven-man executive.

Delegates contended the suggested set-up would concentrate too much authority in one man.

Another committee report, giving the TLC executive power to suspend individuals as well as unions for constitutional violations was adopted. Formerly, the executive could suspend only chartered bodies—not individual members.

**MOVIE OBJECT**  
It was explained this would enable the congress leadership to move against single persons who

NORMAN, OKLA., Sept. 22.—(AP)—Sheriff Jess Jack searched today for the thief who stole his horse from the backyard of his home.

## Manitoba Tourist Traffic Shows 30% Jump

WINNIPEG, Sept. 22.—(CP)—Manitoba showed the greatest increase of any province in tourist traffic for the first eight months of the year. Resources Minister J. S. McInnis announced today. He said tourist vehicle permits were up 30.4 per cent over the same 1940 period. Total tourist traffic in Manitoba this year should exceed 400,000 persons, the minister said. Manitoba's nearest rival in increased vehicle permits was Alberta with a 28.8 per cent boost.

as Communists without penalizing whole unions.

Earlier in the day, the anti-faction of the convention gained ground.

It obtained passage of an amendment to the TLC constitution interpreted as giving right-wing international unions more say in congress affairs through a change in the voting system for conventions.

## FORMER RICHEST GIRL TO WED ENGLISHMAN

LONDON, Sept. 22.—(AP)—Con-

ted 440,000,000 from her father, George W. Vanderbilt, once called the world's richest bride, plans to be a bride again.

The granddaughter of Commodore Vanderbilt is to marry a 35-year-old London banker, Vivian Francis Bulkeley-Johnson.

In a formal notice of intention to wed, filed at Kensington registry office, her age is given as 43. Newspaper morgues indicate she is 40.

Once called the richest girl in the United States—she had inher-

## Former Net Champ Dies

VANCOUVER, Sept. 22.—(CP)—Dr. Jack Wright, of Vancouver, one of Canada's all-time great tennis players, died in Sloughway military hospital yesterday. He was 48. Dr. Wright was taking treatment for a leg ailment and is understood to have suffered a heart attack.

He was Canadian tennis champion in 1927, 1929 and 1931. For seven consecutive years he was ranked top Canadian player and was a member of the Canadian Davis Cup team continuously from 1923 to 1933, playing against several countries including Cuba, Japan and the United States.

He served in the Royal Canadian Medical Corps in the Second World War and afterwards made his home in Vancouver.

## Appeal Based On Housing Shortage Fails

OTTAWA, Sept. 22.—(CP)—The income tax appeal board today dismissed an appeal by a Kindsley, Sask., carpenter against an assessment on his 1940 income tax in a case involving the housing shortage.

The carpenter, Wellington F. Hunter, lived in Flaxcombe, Sask., about 20 miles from Kindsley, the nearest place to Flaxcombe at which he could get work. Because he could not find housing accommodation at Kindsley, he maintained his family at home, but found it necessary to get room and meals in the town of his employment.

**CLAIMED EXEMPTION**  
This, he estimated, cost him at least \$300 in 1940, and Hunter deducted that amount from his income tax, under part of the regulations providing exemption for travelling expenses, including the entire amount expended for meals and lodging while away from home in the pursuit of a trade or business.

The revenue department disallowed the deduction, and Hunter's appeal to the board was turned down because the board ruled his expenses were not incurred because of his family and the housing situation.

**BOARD SYMPATHIZES**  
In making his decision, R. T. Graham, board chairman, said he had given the appeal "the most careful consideration as I have every sympathy for the appellant in the housing difficulty which he encountered and the added difficulty of being unable to enjoy his family life during the period of his employment in Kindsley."

Mr. Graham and Fabio Monet returned similar judgments, while the third board member, Mr. S. Fisher, submitted a minority report favoring the appeal.

## Ethiopians Send Troops To South

ROME, Sept. 22.—(AP)—The Italian news agency, Ansa, reported yesterday from Addis Ababa that the Ethiopian army had to send reinforcements to southern Ogaden, where Somali tribes are said to have revolted against the Ethiopians.

Ogaden was formerly part of Italian Somaliland. It was given back to Ethiopia after the end of the war.
